News from Trinity Lutheran School

February was a big month at Trinity Lutheran School for both Robotics and Basketball. The two Trinity Robotics teams have been working on their robots since September. They gain ideas for how to improve their robots at robotics competitions. Students wrapped up the season among 40 other schools at the Vex Middle School Nebraska State Competition. Both teams made it to the quarter finals! The Trinity Basketball team competed in several games against schools in the area and ended the season with a tournament. Along with the normal academics, students have begun working on skits and plays in preparation for showtime early in May.

To find out more about the strong Christian and academic education at Trinity, please
